

# Wildwood Lightning – Quick Reference Guide

**Pop-up Function Keys:** Press lower right corner of display  
Here are four of the most important pop-up function keys.  
Use them to navigate views, menus and values.

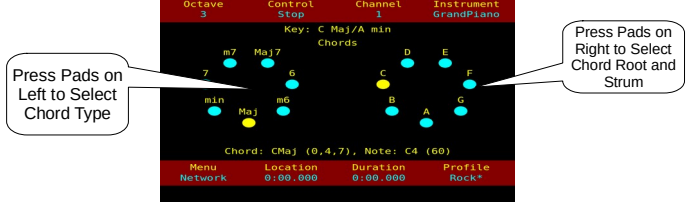

Pop-up function keys may obscure the item you're looking for, so pin/unpin until you're familiar with menus.

<b>Rewind</b>	Position to beginning of song.
<b>Play</b>	Play, pause or resume song. Enter overdub from record.
<b>Record</b>	Begin recording on next note. Enter overdub from play.
<b>Forward</b>	Position to end of song. Move to next song in playlist.
<b>View -</b>	Select previous view.
<b>View +</b>	Select next view.
<b>Menu -</b>	Select previous menu.
<b>Menu +</b>	Select next menu
<b>Octave -</b>	Select lower octave.
<b>Octave +</b>	Select higher octave
<b>Channel -</b>	Select previous channel (includes instrument)
<b>Channel +</b>	Select next channel (includes instrument)
<b>Item -</b>	Move to previous menu item or value.
<b>Item +</b>	Move to next menu item or value.
<b>Select</b>	Select current menu item or value.
<b>Pin</b>	Display pop-up function keys until pressed again.

Once you're familiar with the pop-up function key locations, you can touch the screen directly without pinning them.

**Views:** Press View +/- in Pop-up Function Keys to Select
